*Programming instruction*

*We are dealing with a very special, slow “hard rock” here! The special thing is: There is no accompanying chord at all, just the fifth interval and a very special eighth note emphasis, which constantly drives forward! Even the strings pad only plays the fifth here. You can clearly hear that the chords change from major to minor from the vocals and many key notes from the fill-in area! The bass is content with just the fundamental note, but it also plays along with this emphasized rhythm! In Main 1, the brass fill-ins must be taken into account. In the full style rhythm of Main 2, the brass section then plays a chord breakdown.*
